

Docket Nos. 42310 & 42311
Georgia Power Company's 2019 IRP and 2019 DSM Application
STF-GDS Data Request Set Number 1

STF-GDS-1-19

Question:

Please provide projections for 2019-2038 of GPC winter peak demand under extreme winter temperature and indicate the probability of that temperature occurring (e.g., 1 in 20 years).

Response:

Georgia Power's peak demand forecast is developed using normal weather conditions. A Georgia Power peak demand forecast for 2019-2038 under extreme winter temperatures is not available.
